

Whether you want to have a unique experience or learn and refine your riding techniques on the road, track and off-road, the **Ducati Riding Experience 2018** is expanding to meet the needs of all passionate motorcyclists.

Let's start with the courses of the Ducati Academy, which since 2003 has offered training with renowned instructors and World Champions in unique locations to teach the best techniques for riding on the road (**DRE Safety**), track (**DRE Racetrack**) or off-road (**DRE Enduro**), all in the name of fun.

For those who want to spend a few days riding their favourite Ducati exploring captivating places in the Land of Motors, the **Dream Tour** offers an unforgettable journey on enchanting roads that wind through the hills of the Tuscan and Emilian Apennines, together with a visit to the Ducati factory and museum in Borgo Panigale.

The big new development of 2018 is the **Adventure Tour**, an exclusive on- and off-road tour full of adventure, fun, good food and passion for motorcycles.

With "Ducati Dream Tour", for 4 unforgettable days you will ride the most beautiful and high-performing sport bikes in the world, winding through the hills where they were designed and visiting the factory where they were first built.

The tour begins with a visit to the factory and the Ducati Museum, and after picking up your Ducati the experience will continue with an exploration of the Emilian Apennines.

Through an exciting journey of twists and turns, you will find yourself immersed in a typically Italian atmosphere and landscape where your only concern will be to have fun. Tours are designed and led by Beppe Gualini and his staff who know exactly how to bring the exciting routes and enjoyable evenings to life.

To make this experience even more genuine and natural, you will spend the night at the fantastic Resort Borgo Condé, situated in the green hills of Romagna, where you will be won over by the famous wine and cuisine of this captivating area.
